

BOSS BASICS

BROADBAND OPERATIONS SUPPORT SYSTEM

EFFICIENCY IS INTEGRAL TO THE SUCCESS OF YOUR BUSINESS.
THIS BOSS DELIVERS IT TO YOUR BACK OFFICE.

BROADBAND OPERATIONS SUPPORT SYSTEM

If your Operations Support System (OSS) is a disjointed collection of software and services, it can be a real liability. With all of today's challenges, making the right decision is more important than ever. Arm your business with an asset that is flexible, scalable and delivers results directly to your bottom line.

HOW BOSS WORKS.

Using a utility model pay-per-use platform, BOSS delivers essential back office tools through a single, secure Web interface. BOSS simplifies and unifies your back office by seamlessly integrating all your business functions, increasing efficiency and reducing your operating expenses.

Even better, BOSS is flexible. You pick and choose the services that fit your business needs. Extensive capabilities for customization and integration make BOSS an advantageous solution.

BOSS GETS A HANDLE ON COSTS.

Because BOSS is a metered utility, you only pay for actual use. All BOSS expenses are directly tied to revenue. Workforce management tools boost employee productivity, and built-in oversight makes sure things are done right the first time. Capitalizing on the advantages of a single platform, BOSS improves profits margins and reduces total cost of ownership.

BOSS
BASICS

BOSS EASILY ACCOMMODATES GROWTH.

Because BOSS scales to millions of users, you can focus on the growth of your business, free from the burdens of constant upgrades and capital expenditures. Built for growth, BOSS enables you to improve subscriber counts without sacrificing profit margins.

BOSS ALLOWS YOU TO OFFER MORE. QUICKLY.

With our end-to-end platform, you can cost quickly add new services. BOSS has built-in support for triple play services and an extensible product catalog for custom offerings. BOSS delivers additional services to your customers out of the box.

BOSS IS THE KEY TO YOUR OPERATIONAL AWARENESS.

What really distinguishes BOSS from other operating support systems? BOSS is a powerful management tool that uniquely models, orchestrates and monitors entire workflows end-to-end, giving you an unprecedented view of your company's bigger picture. BOSS enables decision makers to better predict expansion costs and plan more effectively. At last, your entire business is literally at your fingertips.
